LUCIA LED

Innolux Lucia LED is a handy-sized bright light device with versatility worked into its design. The luminaire may be used in small spaces, because it can be mounted on the wall. The high-quality technical parts also make it a durable product. The device may be used without maintenance for more than 10 years. For its size, Innolux Lucia LED is an extremely powerful bright light. The luminaire is equipped with a dimmer enabling you to adjust the illuminance as needed. It is also highly suitable as general lighting for a table.
